Engine Specialist Tool List

The tools listed below must be of top quality, but do not have to be a particular brand or new. Students accepted in the Engine Specialist program at Washington County Community College are expected to have certain tools prior to starting school. While you are expected to bring your tools during the first week of school, we have tool vendors that will be on campus the first or second week of classes that offer substantial discounts to WCCC students. If your set is incomplete or you would like to take advantage of the discounts, make sure you have money available to order and purchase at that time. Drafting supplies and books can be purchased through WCCC's Bookstore here at the College.

REQUIRED:

- Steel tool box (lockable), bench top with a minimum of four sliding drawers or a roll-around bottom cabinet of similar design. Tool box(s) must have your name engraved or a name plate installed on it. Tools must be engraved.
