Continuing Education and Recertification Courses

COVID-19 has upended the economic landscape. In response, Maine's Community Colleges have shifted our short-term workforce training to provide more free remote job training programs that prepare people for jobs that are in high demand, right now.

Basic Principles and Practices for PROPANE and NATURAL GAS

This course covers:

- physical properties and combustion characteristics of propane
- identifying propane industry standards
- safety codes and regulations
- identifying the basic parts of tanks and cylinders
- bulk storage installations
- maintaining a safe working environment
- identifying commonly used hand tools and supplies
- serving the customers

This Training is FREE • 1 Course Credit

Includes online access and course materials

Must be 18 years of age - Maine resident - US Citizen - HS diploma or equivalent
